Defining Luxury

THE BUILDER

BellaMia Development is a locally owned construction company that holds family as it's core value and integrity as the base of it's foundation. Named after the owner's daughters, Isabella and Mia. BellaMia Development was founded under the premise that although there are an overwhelming amount of construction companies to choose from, there are few that offer quality and attention to detail like BellaMia. With this notion in mind, the owner set out to put together a team of trusted individuals who together makeup some of the most brilliant managers and craftsmen in the construction industry.
