

Dear Friend

My name is Michael Carwile. My family and I moved to Lafayette, Indiana back in 2021 when God called us into a new ministry endeavor. At first we thought we would simply step into a pastoral role at an existing church, but after much prayer, it became clear that God was leading us to start something new.

Little did we know that what felt like an experiment would profoundly impact us and reshape how we see ministry. Today, Grace Fellowship of Microchurches is a new, vibrant, Spirit-led movement—something you might read about in the book of Acts, brought to life for the 21st century.

We're doing things we once thought wouldn't work—and God is proving us wrong. We've witnessed lives transformed, baptisms in blow-up pools and bathtubs, and miracles of healing and deliverance.

Now, as more lives come into the Kingdom, we sense God calling us to prepare for what's next. This growth brings new challenges and requires more from our family, including financial support.

With humility and hope, I ask you to prayerfully consider becoming a monthly partner with us. Your support means more than funds—it's a partnership in this exciting journey God is leading us on. We believe He has great plans for Grace Fellowship and for all who join us in this mission.

Thank you for your prayers and for considering joining our family of partners.

Michael Carwile
Pastor

Our Why

Many people attend church, but never experience deep spiritual growth or authentic connection.

Grace Fellowship Microchurches exists to change that. We're building a network of small, family-like churches where people and families come fully alive in their faith, discover their God-given gifts, and actively live out their calling.

Our dream is to see every believer in our network deeply disciplined, strongly connected in community, and fully activated into the life God designed for them.

Our Approach

We primarily meet in homes and online in what we call microchurches — groups of fewer than 30 people.

This setting creates a personal atmosphere where honest spiritual conversations happen and discipleship becomes a shared way of life.

All microchurches share the same pastor but have different **hosts** who provide the meeting space and help care for the spiritual needs of their group.

The result: every person becomes part of a close-knit spiritual family where they are known, cared for, and coached to grow into all God has called them to be.

Partner With Us!

Grace Fellowship of Microchurches is a non-denominational microchurch network based in Lafayette, Indiana.

Help Us Build the Church as God Intended Family, Discipleship, and Purpose

What if church felt like family again?

Not just a weekly service, but a community where people are deeply known... where kids grow up in the presence of real faith... and where discipleship isn't just taught from a stage but lived out in homes, around the table, and through everyday life. That's what we're building through Grace Fellowship Microchurches — a growing network of spiritual families committed to:

- **Deeper Discipleship** — where believers are equipped and transformed, not just informed
- **Stronger Community** — where people are truly known, supported, and loved
- **Activated Callings** — where every person is encouraged to walk fully in who God made them to be
- **Family-Centered Gatherings** — where kids and adults grow together in one spiritual rhythm This isn't a new trend.

It's the kind of church Jesus modeled — relational, intentional, and Spirit-led.

We've seen lives changed, families restored, and people far from God find home. And yet, most of this has happened with little to no advertising — just through prayer, presence, and the power of the Holy Spirit. But to continue and grow, we need faithful monthly partners who believe in this mission. Your ongoing support will help us:

- Train and multiply healthy microchurch leaders
- Host worship gatherings that unify and refresh the network
- Provide resources for kids and families
- Offer pastoral care to those outside the reach of traditional churches

If you've ever longed for a more authentic, Spirit-filled way to “do church” — this is it. And we'd be honored to have you walk with us.
