

COHERENT LEADERSHIP

THRIVING ORGANIZATION

COHERENT LEADERS

- Coherence means optimal functioning or *harmony* within and across systems. The level of coherence between the heart and the brain impacts all areas of health and wellbeing.
- A coherent leader intentionally creates internal coherence which improves the quality of the her thinking, problem-solving, connections, & creativity.
- Coherent leaders intentionally create coherent work environments where each team member thrives and contributes intrinsically and optimally.

COHERENT ORGANIZATIONS

- Coherent teams consist of members who intentionally build their individual coherence which amplifies creative expression, intuitive decision-making, and connections with others.
- Coherent communities are those whose individuals thrive which creates an outcome of inter-connectivity and collective harmony.
- Coherent teams communicate clearly and use both the intelligence of the hearts and minds to make individual and collective decisions.
- Teams that intentionally create personal and group coherence are more successful at reaching and exceeding individual and collective goals.
