Kind Att Mr.: Victor Taute - GM

Sub: SmartCare Ultron Polyurea on existing roof water proofing- Residential Building
AZIZI Montreal.

Dear Sir,

We hereby confirm that M/S TECNIQA done the above application as per our recommendation and method statement. Please find below application procedure done by M/S TECNIQA.

Surface irregularities filled with high strength repair mortar and angle fillet provided all corners. Priming done with Apcoflor HFP 120 before the expiration of pot life. Smart care Ultron polyurea application done using a medium pile roller depending on the absorption of the substrates. Allow the cold applied poly urea coating to dry for minimum curing period 24 to 36 hours prior to proceeding with water test.

We trust the above is to your satisfaction, should you require any further details, please docontact the undersigned.

Regards
