JL and amp install - pathfinder

Pathfinder

We ended May by saying good bye to these beauties.

Pathfinder: Removed this Merc 300 raising the jack plate and did an amp install with (2) 8" woofers;

Yellow Fin: Tank job and complete re-skid;

Shearwater: New T-top. Zinc coating all welds and pads, followed by a wash primer, then 545 then onto awlgrip topcoat color matched to the boat.

Yellowfin

Shearwater

Facts of the month:

Best fish times in June will be the 10th - 24th (the Full Strawberry Moon will be out on the 24th)

Has anyone heard the saying "avoid fishing two days before, during and after a full moon" ?? We are interested in the origin of this and if it holds any truth- let us know your thoughts!
