

Salty Summer Sizzlers

From minor gel coat repairs to complete tank replacements we are staying busy this summer season!

Check out some of July's projects that we are currently focusing on.

Had the pleasure of meeting Brian and Darcie today and this cool Release Flats boat. We will be performing a new tank install, re-wire from bow to stern, latch and hinge upgrades and some fiberglass and gel coat repairs. Stay tuned for the final reveal!

An unfortunate incident occurred with this boater when another boat collided with this vessel and the prop sliced through the hull causing major damage. We contracted the job through Bass Pro Shop on an insurance claim we put together for the owner and got them approved for the damage. On to making this boat look brand new again.
