

# BROCT

## Data n Cloud

Data Backup, Continuous Data Protection (CDP), and Real-Time Data Replication

High Availability Solutions for Critical Business Applications

Cross-Platform Hot Migration for Applications and Virtual Machines

Database Migration, Synchronisation, and Read/Write Optimisation

Intelligent Disaster Recovery Operations and Management

Automated Disaster Recovery Testing and Availability Validation

Multi-Site Disaster Recovery Architecture, including 3DC, Local, Remote, and Cloud-Base DR

# Integrated Solutions & Services Portfolio

## Industry Solutions

Government &  
Public Sector

Banking, Financial  
Services & Insurance

Telecommunications &  
Media

Healthcare & life  
Sciences

Transportation &  
Logistics

...

## Consultation & Services

Design

Consulting

Training

Implementation  
& Delivery

Operations &  
Maintenance

## Products and Functions
