

## MEETINGS

Every meeting requires planning and that is where **SPICE** Travel steps in. Be it a Board Meeting or an Offsite for Senior Management or a Day-meet or a Residential meeting for a Corporate or a select group or targeted delegates, we do it all.

**SPICE** has arranged several meetings in Mumbai and other cities in India and in many countries for Corporates and Associations.

We have the experience to liaise with several agencies and manage every aspect necessary so that our clients are left to concentrate on the Content & Objective.

## VIRTUAL MEETINGS

Extensive use of technology has made it possible. Speakers & audience / participants at several locations also interact using Video links.

With possibilities of connecting more than a 1000 or even 2000 participants at one time, **SPICE** is able to provide several possibilities of **branding** and also share with client the attendance date tracked.

Solutions based on objective and budget are provided with adequate creativity to ensure attendees / participants experience being there although virtually.

Imagine a key or VIP speaker or performer shown from a venue or location even though he may actually be elsewhere.

## HYBRID MEETINGS

Again made possible using technology where Speakers or key personnel gather in-person at a venue or an important element like an Inaugural address or closing ceremony or a celebration or performance actually is happening at a location and is simultaneously web-casted with a two way audio / video inter-action.

At the heart of this concept is seamless integrated communication

**@ SPICE we make Meetings Work !**
