

## LIFE LESSONS

“The Comeback” is the latest in K.F. DeNicolo’s Heritage Collection, a series of brief, colorful books aimed at developing literacy in diverse communities and creating a lifelong love of reading. In “The Comeback,” Francesco’s modern Italian family is struggling to achieve the American dream, as did the generations before them. In the process, they find themselves caught in a never-ending cycle of striving without thriving. Success continues to elude them until each discovers the game changer that works for them. “The Comeback” can be read alone, but it’s meant to be shared aloud as a sort of reader’s theater. Either way, the goal is to walk a mile in another’s shoes and build bridges to one’s own version of success. ([kfdenicolo.com](http://kfdenicolo.com))
