## Community For Youth Campaign

The Fort Dodge Community REC receives many inquiries into youth fitness. The Community for Youth Banner not only serves as advertisement for you, but the purchase of a banner provides financial assistance to not only youth, but other individuals with need in our community. The Downtown REC Center is the home to many youth activities and events. With your donation, you will receive a banner displaying your company's name that will hang on the indoor track above the gymnasium at our downtown location. Additionally, each donor will be listed on The Fort Dodge Community Recreation Center website. These donations are all tax deductible and the banners are a great way to advertise your business by proudly supporting the recreational need in this community.

This program is intended to be an annual commitment. With your support, the Fort Dodge Community REC Center will be able to remain the leader in participation for the youth in our community. The REC has a mission of promoting a healthy and active life style for the youth, adults and families we serve, in an environment that encourages positive character and strong values. It is essential to keep the cost of our memberships and programs as low as possible in order to maintain our high level of participation. Your donation is essential in keeping The REC's policy of "no youth denied a membership."

We sincerely appreciate your support and look forward to your generosity as we continue to provide cost effective and healthy activities for the youth of our area.
