MAY 19, 2025

GET UP! STAND UP FOR YOUR RIGHTS!!

Another anti-Postal Worker report was released on May 15, 2025. This one was issued by a commission appointed in December 2024, after we were forced back to work on December 17, 2024.

The report of this one-man commission says more about how this commissioner was captivated by the same tired talking points - which we have heard for so many years.

We are being told that the day has come when we must give up our struggle for improvements in pay and better working conditions at CPC!

It is amazing that someone can so easily fall victim to Canada Post position - that if they do not get what they want - they are prepared to shut down the post office!! Let it bleed to death!!

And his resolution to the Union? That we should all agree to make Letter Carriers, RSMCs, MSCs and all others doing deliveries into Part-Timers!

Why? Because he claims that Canada Post is bankrupt, letter mail is falling and the Parcel Market is already controlled by Amazon, Fed-Ex, Purolator, UPS, and others. They are making billions in the Canadian Market, but CPC is bankrupt!!

He wants workers to believe that Canada Post view of the world is the only valid view, and we must be obedient slaves and not put up opposition to what is about to take place.

I cannot believe that they stopped our strike for six months to tell us what we already knew the Commissioner will be saying. The sky isn't falling guys!

Why should we take this latest scare campaign seriously?

Stand in Solidarity - Sisters and Brothers – We will get a contract which meet out demands for improved wages and better working conditions! Our demand for these things is legitimate and we are determined to mobilize and work through this tough time and negotiate new collective agreements for our members.

We say keep the Post Office as a **PUBLIC POSTAL SERVICE! NO NEED TO PUT THE PUBLIC POST OFFICE UNDER THE CONTROL OF THE AMERICAN BILLIONAIRES!!**

POSTAL WORKERS HAVE THE LOYALTY TO BUILD AND NOT WRECK CANADA!!
