MEDICAL RECORD

NAME _____
HOSP. NO. 411-622
ADMITTED 4-25-76 ROOM NO. 307-G

The patient is a 54 year old white, widowed female.
Address: 158 South Union Street, Concord, North Carolina.
Telephone Number: 782-6917.

CHIEF COMPLAINT: The patient was raped.

PHYSICAL EXAMINATION: General examination shows the face to be swollen with ecchymoses, bruises, small abrasion and cuts. Her face appears to have been beaten, like beaten with a blunt object such as a fist. Both her wrists are markedly sore and swollen although on palpation there is no evidence of fracture. She feels this occurred when she was trying to beat her assailant over the head with her hands and wrists. The upper chest and the abdomen is not marked. On further examination of the face the lip is cut on the inside and also on both the upper and the lower lips. There are numerous cuts and skin abrasions with the entire skin being removed from the anterior surface of both legs over the tibiae with the largest wound on the anterior aspect of the left leg. The patients finger nails are all sore and some of them have been bent backward which the patient thinks occurred when she was trying to scratch her assailant and fighting back.

PELVIC: The pubic hair was combed and this was put into a plastic bag. This patient previously had a total abdominal hysterectomy done by myself so the vaginal vault was intact. In the vaginal vault in the posterior fornix there was a large amount of rather thick fluid ~~and vaginal secretions~~. This fluid was aspirated, put on slide by wet preparation to take to the laboratory and examined by myself. It was swarming with numerous live motile human spermatozoa. I had this verified by three lab technicians who also initialed this report. Additional secretion was taken from the vaginal vault and placed on two slides for dried preparations. In addition to this, a portion of this fluid was taken on two swabs, placed in a test tube and was stoppered so besides the live sperm there were three separates, the pubic hair in the plastic bag, the test tube with the vaginal swabs, and vaginal secretion containing the material in which the sperm were present and two smears for dried preparations. These were all taken according to the rape protocol which was done in the Emergency Room. The rectal examination was negative. There was nothing palpable in the adnexae. There were small bruises and abrasion marks with

14. STATEMENT

Sunday night, nobody was making a sound, and I knew that he's my car was coming in. I went to the door and opened it for him and then all of a sudden a man came from nowhere and pushed me into the kitchen. I was trying to force him and he kept on saying shut up, shut up and he left the door open and he just left. I didn't get any bruises except where he pressed my left arm. I called the police and they came. I never thought of him coming back. Last night when I was with Perry Mason, I heard someone knock on the door and I didn't answer it and just kept quiet and it just kept going on. Finally I said who is it and he said it was the police and I told him that I didn't believe him. He kept saying open up and he said don't you remember you called the police last night about someone attacking you, he said, well, I'm one of the police. I kept saying, I don't believe it's the police and he said that I didn't have to take the chain off the door just leave it on and I could check to see that he was the police. I did that and when I pulled it open a little, I couldn't see him and I asked him where was his badge and he didn't say anything and I still didn't see him. So I slammed the door and tried to call the police but by the time I got to the phone he was already in the apartment. I got the phone in my hand and I heard the slam of the door and he grabbed the phone out of my hand and he grabbed me and slung me on the floor in the living room into the dining room. He hit me around the face he slapped me with his open hand and he was saying, that will teach you to call the police. He dragged me into the bedroom. I kept screaming and he put this old cloth down my throat and he said that if I didn't keep quiet he was going to kill me. When he first took me into the bedroom he put me on the bed but for just a minute and then he yanked me and threw me on the floor. He took the gag that was in my mouth out and then he stuck his penis into my mouth and he kept saying, that will teach you to call the police. He didn't keep it in there long. After he did that he told me to stay where I was that he had to use the phone. Before he used the phone some stuff was all over my face, I guess it was from him, it didn't get into my mouth. Then he left the room and I pulled myself up and tried to get to the living room to use the phone, I was half way from the bedroom door to the living room, the light was off and it was on the floor. He grabbed me and took me back in there. I thought he was already gone because he said you lay there and don't open your mouth. He hit me some more and then he stuck his penis into my mouth again. He just kept laying there and don't move or he would kill me. He was straddling me and was holding my shoulders on the floor with his hands. The only thing he kept saying was don't move or I'll kill you. I didn't hear the door closing and I waited for a short while and then I went into the living room and I called the police.

Q. Can you describe this guy to me?

The c/w reported that on Monday morning about a little after twelve-mid. she was letting her cat in when the above s-1 forced his way into her apt. and throw her down on the hallway floor, he then ran out of the apt. A Burg. I report was made and Det. David Israel of 7-D Det. is assigned to that case.

The c/w reports that about 11:30 P.M. on 7/31/75 that she was watching Perry Mason on T.V. at which time she heard a knock on the door but did not answer it, the s-1 kept knocking and finally the c/w went to the door and asked who it was, the s-1 told the c/w that he was a policeman and asked her didnt she call the police Sunday night about someone breaking into her apt. and she said yes. At this time the c/w states that she cracked the door open leaving the chain on but she did not see anyone, she said that she was going to call the police and as she walked away from the door the s-1 broke the chain off of the door and came in, the s-1 then grabbed the c/w and threw her to the floor, he then drug the c/w into the bedroom, threw her on the bed and then onto the floor, the s-1 then began telling the c/w that she should have not called the police Sunday night because he had told her not to. The s-1 then held the c/w on the floor and took his penis out and put his penis in the c/w mouth, the c/w then began to struggle with s-1 and at this time he ejaculated on the c/w face. The s-1 then told the c/w that he was going to gag her and for her not to scream if she did he would kill her, the s-1 then placed and unknown object in the c/w mouth and left her on the floor, the c/w waited for a while and when she got up and went into the livingroom the s-1 was still there, he then took her back into the bedroom and told her again not to move, the c/w states that the s-1 smacked her in the face several times during the assault, after the subj. had taken the c/w back into the bedroom the second time he left.

Francessa Britton who lives at 3812 W St. S.E. #201 states that between 11:30 P.M. and twelve mid-night she heard screams coming from the c/w apt. at this time she went down to the c/w apt. and knocked on the door but no one answered, she then went back to her apt. where several of her friends were and told them to go back to the c/w apt. with her, but before she went down stairs she called the police. After she returned down stairs with the below named wit. they went outside to wait for the police.
