About the Show

What if your entire childhood fit on one playlist?

Nikki Chick's Playlist brings together an eclectic collection of music from the 90s and 2000s, inspired by the songs we grew up with, the people who introduced us to them, and the memories attached to them.

From pop and R&B to hip hop and unexpected favourites, the show reflects the different musical influences and tastes of the Maven team. Some songs you'll know by heart, others you may have completely forgotten about.

A collection of our favourites, celebrated through dance.

Dedicated to Nicole + the Gracefield Girls #PortDalhousie
