Fall Safety and Security Tips: Stay Prepared as Seasons Change

As we transition into fall, it's important to stay prepared for the safety and security challenges that come with the season. Think safely as you enjoy the cooler temperatures and vibrant colors.

Safely Warm Up by the Fire:

Inspect your fireplace before lighting the first fire. If you have a fireplace in your home, be sure to have it cleaned and inspected before lighting your first fire of the season. A buildup of soot and creosote can cause a chimney fire and a backup of dangerous carbon monoxide gas into your home. Keep the surrounding area clear and remove any hanging decorations on your mantle. Always keep a fire extinguisher nearby.

Never Leave Burning Candles Unattended:

Remember to keep burning candles away from anything that could burn, such as curtains, bedding or books. Always extinguish a candle before going to bed or leaving the house.

Watch for New Roadway Hazards:

Slow down and take extra care to look for children in school zones, near playgrounds and residential areas. Never pass a bus with flashing red lights on, or another vehicle stopped for a pedestrian.

Be Alert for Wildlife on Roadways:

Watch carefully for deer, turkeys and other critters crossing the road in front of your vehicle. They are most active from dusk through dawn.

Get Your Flu Shot:

The viruses found in the flu vaccine are inactive, so you cannot get the flu from the vaccine. After getting vaccinated, it takes about two weeks to develop antibodies to protect against influenza. That's why getting vaccinated in early fall is recommended.
