ABOUT FUSION KARTS

Founded in December of 2023, Fusion Karts has a fresh new take on Outlaw Kart Manufacturing and Service. We aim to provide custom service to each individual customer and tailor our approach to your specific needs and situations.

In our first full season as a company, we have been blessed to see immediate on track success, growth and relationships.

With 2025 nearing quickly Fusion is expanding its customer servicing capabilities by opening "Fusion Karts West" leaving no one behind as our karts continue to migrate outside our home regional location of Missouri.

We are excited for 2025 and are optimistic for both more on track success as well as business expansion, growth and partnerships!

ABOUT VAN-K WHEELS

Van-K Wheels started as VanK Engineering in the late 1970's in Southern California. Spinning aluminum wheel halves became the major part of the business and soon became a major supplier to the karting industry.

Over the years, Van-K Wheels continued to develop new wheels for many forms of racing and industry; all being spun using North American made 6061 aluminum.

In the early 2000's, the company was moved to North Carolina, and closer to the heartbeat of American racing.

In 2021, Ace Manufacturing and Parts Company acquired the Van-K Wheels business and moved it's operations to Sullivan, Missouri. Ace Manufacturing has been producing automotive clutches for over-the-road trucks and the racing and street performance industry for more than 50 years.

WANT TO GET INVOLVED?

As we begin our 2025 Fusion Open PRI build, we are accepting product partnerships from those who are looking to be showcased at PRI as well as throughout the 2025 race season on GSR's Fusion House Kart. Scan the QR code or visit <https://fusionkarts.pro/pri-build>
