BUSINESS SIGNAGE GRANT APPLICATION

The Mount Pleasant Business District Authority (BDA) is offering a matching grant program in order to assist businesses with their appropriate signage.

Prelude:

Business buildings in small towns need to reflect character to be inviting and compete with malls. Signs on business buildings are an important design element that will improve the visual quality of the business district area (businesses in the Mt. Pleasant Borough) and create the appropriate architectural ambiance to attract tourists and accommodate pedestrian shoppers, residents strolling along sidewalks, and motorists driving at slower speeds. Considerations (e.g., size, utility, location, material, lettering style, color and illumination) are very important in designing an attractive, functional sign.

Business Signage Grant:

Grant assistance may not exceed \$500 per applicant or 50% of eligible expenses, whichever is less, and is provided on a reimbursement basis.

For example:

If the total project costs \$800; the grant award will be half of that amount: \$400.

If the total project costs \$600, the grant award will be a \$300 award.

Projects that cost more than \$1,000 are eligible for the grant, but the award will be capped at \$500.

Total amount awarded each fiscal year is \$4,000. Fiscal year is Oct 1st – Sept 30th

Eligibility:

- Eligible applicants for the program are building owners and/or business tenants currently owning or leasing tax assessed property within the boundaries of the Borough of Mount Pleasant, as well as prospective owners/businesses planning to locate within the area. Business tenants must submit written consent from the building owner to participate in the program.
- Applicants are only permitted to receive this grant every 2 years (730 days) from the previous grant awarded by the authority.
- No grants will be awarded to government owned properties, to tenants in government owned properties, non-profit organizations or residential conversions.
- Grant covers sign cost.- ONLY. Applicant is responsible for obtaining any permits required to do the sign project. Cost of permitting, installation, and wiring cannot be part of grant funding.

BUSINESS SIGNAGE GRANT APPLICATION

Eligible Business Marketing Projects

Type Maximum reimbursement of \$500.00 The following is grant protocol:

- All building signs shall be designed, constructed and maintained to compliment and harmonize with the architectural features of the building. High quality materials should be used, ie: wood, metal, channel lettering, illumination etc. Paper, cloth, banners and plastic materials are considered temporary signs and are **not** applicable.
- All signs must be affixed to the building.
- Door decals in vinyl is an acceptable form of business signage.
- All signs should convey their message clearly and legibly, shall be weather resistant, and if illuminated, shall not be overly bright for their surroundings, distract drivers, nor spillover onto the right-of-way or adjacent properties/signs.
- Signs should contain at a minimum the business name or logo and phone number.
- There are two methods of illuminating signs: internal with the light source inside the sign and external with an outside light directed at the sign. Signs will be lighted with continuous light sources per guidelines of the Borough Sign Ordinance.

Suggestions / Sign Etiquette

- Avoid intricate typefaces – the most significant influence on legibility is lettering. Avoid crowded lettering, words or lines.
- The most aesthetically pleasing and effective signs are produced when light colored letters and images are placed on a dark, contrasting colored background, or vice versa.
