

July 27, 2024

To All of My Loyal Patients:

It has come to my attention that you may have received an email recently from Live Forever Health with some misinformation. Live Forever Health is the company that purchased my medical practice, RejuvaMed, on January 2, 2024. Unfortunately, the physician who received your information to continue care was not happy with the way the new company conducted business and resigned. I did not want my patients to be left without proper care, so I recently partnered with a company named No Limits Evaluations to provide you with your Medical Marijuana recertifications. You will be happy to know that Amy Lerza, who is the COO of No Limits Evaluations, is available to assist you with your questions and concerns and renew your certifications via my authorization as always. I want to assure you of one thing; I am not gravely ill. In part, I made the decision to sell RejuvaMed to allow me more time to spend with my family and travel a bit. I have decided going forward that I will only care for medical marijuana patients. I appreciate you and please know we are here to provide you with your medical marijuana recertifications and card renewal in a timely manner. In addition, feel free to contact the CEO of No Limits Evaluations, Nick Perslin. Either Nick or Amy will be more than happy to verify your information in the Medical Marijuana Registry so that you are comfortable that you are still active with us, discuss any concerns you may have and continue to assist you as one of our valued patients. I trust you are all happy and well.

In Good Health,

Kenneth C. Andronico, DO
