MASTERPRO REPAIR & RESTORE™
RestoreKoat Concrete

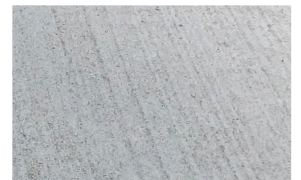

RestoreKoat by Concrete Craft™

Concrete is one of the most durable materials on earth, but over time, it can deteriorate to an unsightly surface of stains, cracking and spalling. It may seem that replacement is the only option for damaged concrete, but Concrete Craft provides an economical solution to repair and restore existing concrete surfaces without demolition and replacement.

Untreated Concrete

RestoreKoat is a versatile repair mortar, designed for use on properly prepared concrete substrates. It can be used for spall repairs, complete resurfacing, large structural rebuilds, or where damaged concrete is in need of repair. This proprietary repair and restoration system can be prepped, installed, cured and returned to service in 24* hours.

RestoreKoat™ Concrete

*Cure time depends on variables such as weather, moisture levels, and temperature.

**Freeze & Thaw
Resistant**

**UV & Oil/Gas
Resistant**

**Highly
Durable**

**Quick Return
to Service**

**Odorless &
Zero VOCs**

Commercial Applications

MASTERPRO REPAIR & RESTORE™ | CONCRETE RESTORATION SYSTEMS

Regardless if you're a business owner or a homeowner, protecting your investment is always top of mind and ignoring damaged concrete can lead to larger, more expensive problems. Without the need for heavy machinery and demolition of old concrete, RestoreKoat provides you a cleaner and less intrusive solution to concrete repair. At 7000 psi, RestoreKoat cures at a higher psi than normal concrete ensuring a strong and durable surface that will extend the life of your concrete. The end product is a freeze/thaw, salt scaling, abrasion, impact, and UV light resistant surface.

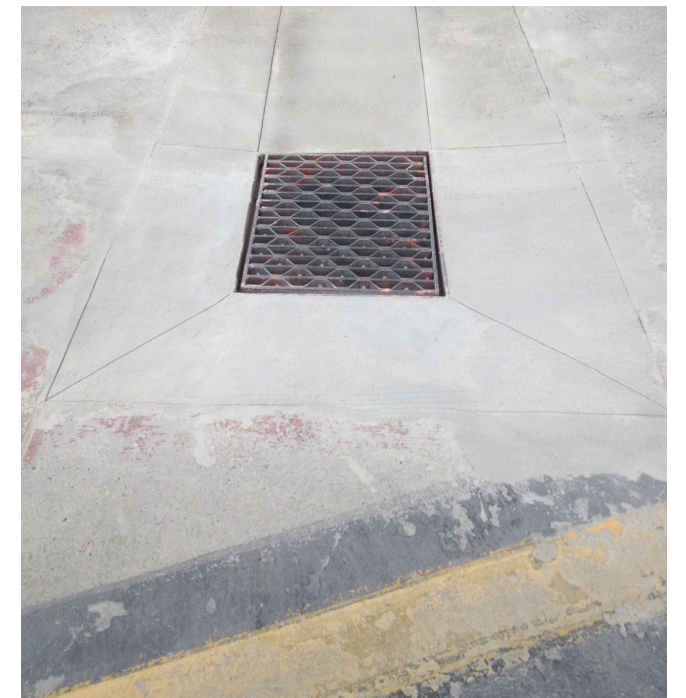

Warehouse Before & After

Save time and money year after year with a durable floor that stands up to heavy equipment and daily use without damage.

Street Grate Before & After

Eliminate safety issues caused by damaged concrete, protecting employees, customers, and your property.

Decorative Applications

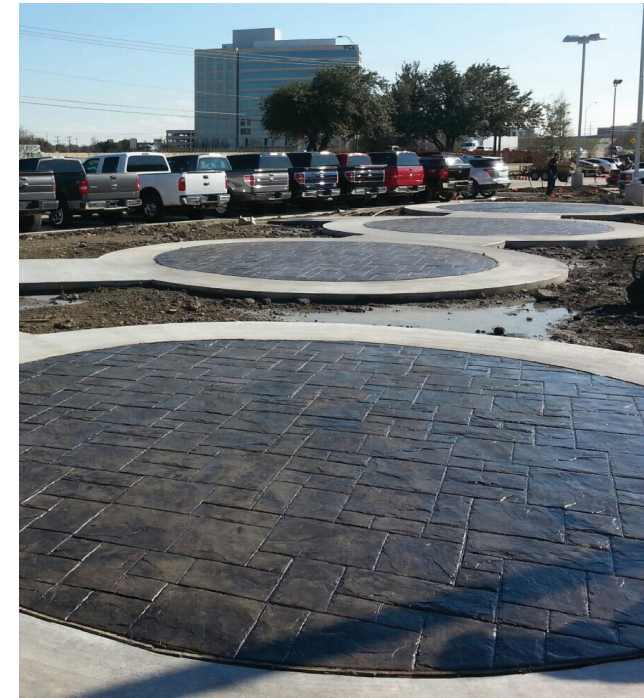

MASTERPRO™ | DECORATIVE CONCRETE SYSTEMS

The perfect balance of functional and beautiful concrete floor solutions for commercial spaces.

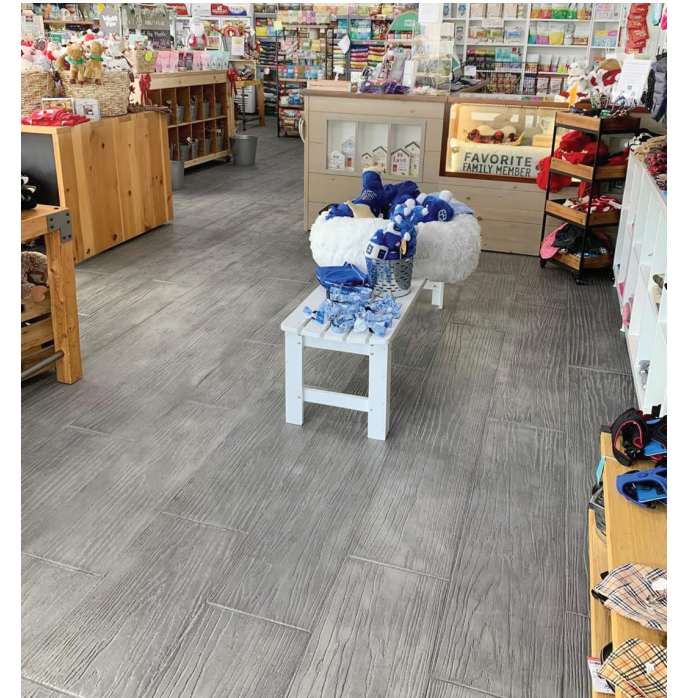

Our craftsmen are commercial concrete flooring experts. We have years of concrete commercial flooring experience, specializing in our proprietary resurfacing process over existing concrete, including stamping and staining concrete in high-profile reception areas, offices, salons, restaurants, and retail buildings where low maintenance, easy-care, and durability are of the utmost importance. Decorative commercial concrete floors are ideal for high-traffic environments because they

withstand heavy foot and vehicle traffic and resist abrasions and stains. Concrete Craft's resurfacing overlay system utilizes real stone molds to give your exterior commercial spaces the same type of textures found in nature. All of our products offer built-in UV coloring protection and, with our top-of-the-line sealers, provide beautiful, durable, low-maintenance surfaces for your business.

MASTERPRO STAMP™

Faux Ashlar Slate courtyards enhance your business's curb appeal.

Enhance your store with the beauty of wood floors without real wood hassles.

MASTERPRO FINISH™

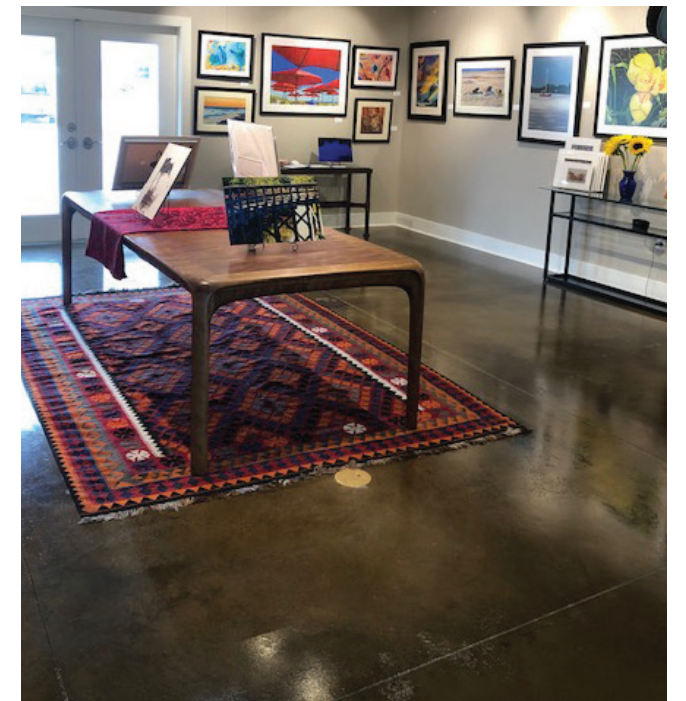

BEFORE U.S. Air Force Academy – Southeast Asia Memorial Pavilion

AFTER U.S. Air Force Academy – Southeast Asia Memorial Pavilion

MASTERPRO STAIN™

Stained concrete is the perfect combination of durability and functionality.

Add depth to your concrete floors with acid- or water-based stains.
