

PREFERRED EQUITY PLATFORM

Shadowcast Partners specializes in affordable and flexible structured financing solutions for multifamily, self-storage and multi-tenant industrial & retail sponsors in Montana and surrounding Inter-Mountain West states.

Shadowcast’s small balance preferred equity platform exists to serve sponsors of small to medium sized deals, a segment generally ignored by institutional capital providers.

Our private capital solutions give real estate owners access to more capital than is available through conventional financing structures and can be used in conjunction with new or existing mortgage loan financing.

PREFERRED EQUITY 101

Preferred equity = ‘Rented equity’. Sponsor ‘rents’ equity to affordably increase leverage, in exchange for preferred returns and priority of repayment upon refi or sale.

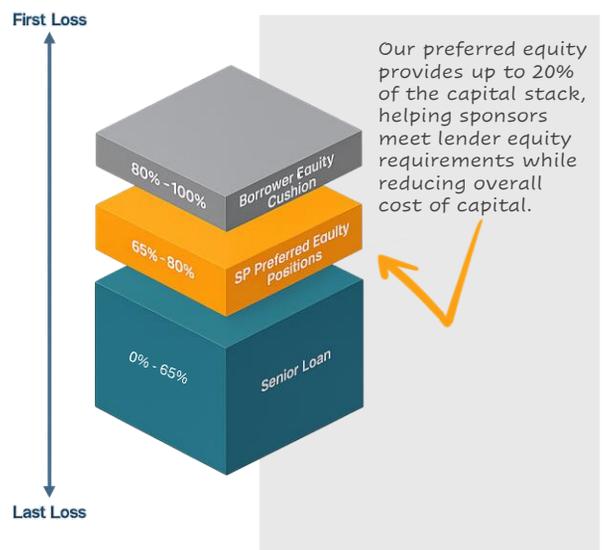

Behaves like mezz debt but recognized as equity by lender. Circumvents restrictions on subordinate debt. No profit participation

Collateral: structured with a pledge of the common equity with remedies written into entity operating agreement.

Less expensive than traditional equity and, combined with low-cost senior debt, provides a comparably low overall cost of capital, while eliminating need for additional equity raise.

Sponsor maintains control, strategic decision making and future upside potential

No profit participation. Upon repayment of Shadowcast’s accrued returns and principle, our ‘rented equity’ stake reverts to Sponsor and common equity holders.
