

pig^{skin} pick 'ems

top 20

Week 7 proved to be the easiest pick week of the year so far with the average of correct picks tallying 9.40. However, one of our leaders stumbled during the easy week and plummeted down the standings. Wayne Hogon went 5-10 and will have to drop that score. Due to that stumble, Lee Glaze takes over the lead after a strong week and has a 1 game lead over Larry Gamble. Jerry Jackson and Tony Myers are T3 and are only 2 games back. Chip Chase and Lyle Wescott round out the top 5 and are only 3 games back. Picks tend to only get tougher from here as the end of the year winning score is usually between 62-67% correct which means that everyone is still in it. The Top 20 after Week 7 are:
