top 20

The start of the 2025 season has proven to be a little more difficult than last year with the leading score in our inaugural Top 20. 40-20 is six games worse than the leading score after week 5 in 2024 and while some of the names near the top have changed, the perennial pundits are all still there looming. Wayne Hogon leads by 2 games over Lee Glaze and by 3 over Mark Cox and Larry Gamble. Glyn Bethune, GG Cutter, Jerry Jackson, Harold Nixon and David Rankin are all T5 and 4 games back. Picks tend to get tougher from here as the end of the year winning score is usually between 62-67% correct which means that everyone is still in it. The Top 20 after Week 5 are:
