

Week 13 proved to be an extremely difficult week for the field and it tightened everything at the top. The average number of correct picks was 6.98. Lee Glaze held on to the lead, but barely, as Chip Chase and Paul Krouse are both T2 and only 1 game back as we enter the playoffs / bowls. Doug Griffin and Talmadge Tobias are T4 and only 3 games back. With the new playoff format this season, the field is still wide open for someone to rise very fast or fall very hard. Keep an eye on the website. Playoff / Bowl Pick sheets will be posted once they become available. Playoff / Bowl Picks cannot be dropped. The Top 20 after Week 13 are:
