

## **AuditOne LLP SOC Program Overview**

AuditOne LLP provides a cost-effective program to deliver globally recognized third-party security audit reports. Our SOC audit reports establish confidence in your organization, can be used as a sales tool, and are often required by larger companies for due diligence purposes. The AuditOne LLP audit process is simpler, and a far less time consuming compared to other third-party security audits.

### **SOC Benefits**

- Globally recognized security audit reports (AICPA)
- Increased customer and investor confidence in your organization
- Cost effective compared to other third-party security audits
- Simplified non-intrusive process for any size organization
- Satisfies customer due diligence third-party security audit requirement
- Dedicated experts to walk you through the process
- Experienced audit firm with established track record

### **SOC Advantages**

- The SOC framework is industry and regulator agnostic
- Audited controls are your controls and based on existing processes in place
- SOC audits are significantly less costly than PCI-DSS or ISO
- SOC audit time commitments are significantly less than PCI-DSS or ISO
- AuditOne LLP has over a decade of experience delivering SOC audits

### **Process**

From the initial kick off meeting, to report issue, we walk your organization through the entire process. The AuditOne LLP process simplifies security compliance and establishes confidence in your organization.
