

**FORSYTH COUNTY SHERIFF'S OFFICE
OFFICE OF THE PEOPLE**

Sheriff Bobby F. Kimbrough, Jr.

GENERAL MEMORANDUM

TO: WHOM IT MAY CONCERN	DATE: 03/07/2024
FROM: Cpl. D. Butcher	DISTRIBUTION: STATE OF NORTH CAROLINA
SUBJECT: LEGACY TACTICS GROUP, LLC.	

I am Corporal D. Butcher with the Forsyth County Sheriff's Office. I currently hold a NCJA Tactical Officer Certificate, requiring 400 hours of State-approved Tactical Classes, which I obtained last year. I have been in Law Enforcement for six (6) years, and was a U.S. Army Airborne Infantryman prior to this career in Law Enforcement. Further, I have three (3) total years of S.W.A.T. experience prior to my involvement in the pertaining training.

I had the opportunity to train recently with Legacy Tactics Group, LLC. I was trained by John and Spencer, pulling primarily from Spencer's instruction and knowledge.

Both the training method, as well as the individual tactics taught, were above average quality. Some tactics taught were things, despite my above mentioned experience, I had never observed. I have since implemented most of the tactics taught in this two-day course in my day-to-day involvement where tactics take primary role.

Should I be given the opportunity, I know I would take several more classes put on by this company. I further believe that there are things Spencer and John could teach that I have not seen before, such as was the case in my involvement with Legacy Tactics Group, LLC.

Tactics have a myriad of applications and diversities, and despite my own experience I know I cannot achieve the level of experience offered by Legacy Tactics Group, LLC. This company has tremendous potential, in my opinion, to be an exceptional and reputable company that I believe any agency would benefit from taking advantage of.

It is my professional opinion that this company is deserving of any funding offered by the State of North Carolina to provide North Carolina Law Enforcement Officer's with a greater degree of training and experience. This experience would go to better serve the citizens of North Carolina and the Officer's that serve those citizens.

I lastly believe the training offered by this company specifically is not something most companies would have the ability or experience to offer.

Thank you for your attention in this matter.
