

# Energy Storage System

## Roadmap for India: 2019-2032

Supporting Agency

**MacArthur  
Foundation**

**ISGF**  
India Smart Grid Forum

Knowledge Partner

**IESA**  
India Energy Storage Alliance

# Authors & Acknowledgement

India Smart Grid Forum (ISGF) would like to express our sincere gratitude to MacArthur Foundation who has extended a grant to ISGF for undertaking first of its kind project in the country to prepare an ***Energy Storage Roadmap for India 2019 – 2032***. MacArthur Foundation works to primarily support mitigation interventions that seek sustainable solutions to challenges India faces from climate change.

We would like to thank Mr R P Gupta, Additional Secretary, NITI Aayog and his team for providing all the necessary guidance and support to undertake the study for the preparation of this report.

We wish to thank Mr Mrityunjay Kumar Narayan, Joint Secretary, and Mr Vishal Kapoor, Director, Ministry of Power, for their support for this important project.

We would like to thank Dr P C Maithani, Scientist-G, Ministry of New and Renewable Energy (MNRE) and his team for extending their support and guidance throughout this study.

We would like to thank Mr Vivek Goel, Chief Engineer – Distribution Planning and Technology, Central Electricity Authority (CEA) and his team for providing all the necessary guidance related to the electrical infrastructure of the country.

We would like to thank all the six distribution companies, Adani Energy Mumbai Ltd (AEML), Andhra Pradesh Southern Power Distribution Company Ltd (APSPDCL), Bangalore Electricity Supply Company Ltd (BESCOM), CESC Ltd (Kolkata), Tata Power Delhi Distribution Ltd (TPDDL) and Uttar Haryana Bijli Vitran Nigam (UHBVN), who helped us in conducting the load flow studies of their distribution network.

We also wish to extend our sincere gratitude to all the stakeholders whom we consulted during the course of this study for their cooperation and relevant inputs which were very valuable for this study.

| <b>Executive Summary</b>   | <b>xix</b> |
| <b>1 Introduction and Background</b>   | <b>1</b>   |
| <b>1.1 Purpose of the Study</b>  | <b>1</b>   |
| <b>1.2 Indian Imperative</b>   | <b>4</b>   |
| 1.2.1 India's National Commitment to Reduce Green House Gas Emission   | 4          |
| 1.2.2 Initiatives by Various Government Agencies   | 5          |
| 1.2.3 Details of 175 GW Renewable Energy Target by 2022  | 5          |
| 1.2.4 Breakdown of 40 GW Rooftop Solar PV (RTPV)   | 6          |
| 1.2.5 Regulatory Landscape by States/Governments in Promoting Rooftop Solar PV (RTPV)  | 7          |
| <b>1.3 Scope of Study</b>  | <b>9</b>   |
| 1.3.1 Study of Different ESS Technologies and its Effectiveness in Indian Context: Detailed Techno-Commercial Evaluation and Guiding Document for Choosing ESS Solutions | 9          |
| 1.3.2 Hosting Capacity of Variable Renewable Energy (VRE) on MV/LV Feeders   | 10         |
| 1.3.3 Technical Issues and Challenges  | 10         |
| 1.3.4 Solutions Portfolio for VRE Integration  | 11         |
| <b>2 ESS Technologies</b>  | <b>13</b>  |
| <b>2.1 Introduction</b>  | <b>13</b>  |
| <b>2.2 Description of Energy Storage Technologies</b>  | <b>14</b>  |
| <b>2.3 Key Players and Technologies</b>  | <b>19</b>  |
| <b>2.4 Need for Energy Storage in India</b>  | <b>23</b>  |
| <b>2.5 Energy Storage System (ESS) Applications</b>  | <b>24</b>  |
| 2.5.1 EV Adoption  | 25         |
| 2.5.2 Peak Shaving   | 26         |
| 2.5.3 Ancillary Services   | 26         |
| 2.5.4 Transmission and Distribution Grid Upgrade Deferral  | 27         |
| <b>3 Assessment of MV/LV Stabilization and Optimization for 40 GW RTPV: Technical Issues and Challenges</b>  | <b>29</b>  |
| <b>3.1 Issues at MV Level and LT Level (3-Phase and 1-Phase)</b>   | <b>29</b>  |
| <b>3.2 VRE on MV and LV Coupled by Same Transformer</b>  | <b>31</b>  |
| <b>3.3 RTPV on MV and LV on Different Transformers</b>   | <b>33</b>  |
