ANYTHING IS POSSIBLE!

Whether it's blanking, cluster, embossing, forming, marking, wheel, knock-out, or a custom solution, PASS has the solution for you. We go beyond the core functionality of punching tools using our various departments of expertise to supply the ideal solution to meet your needs.

All PASS specialty tools are inspected, tested, documented, and controlled using specific strength calculations. We also work directly with the customer to verify the exact specifications.

Holding numerous patents in over 60 countries, PASS Stanztechnik AG is known for our innovative, modern, and efficient approach which guarantees the success of our products. We make every effort to achieve optimum performance for our customers.
