Received: 10/22/2019

Tested: 10/22/2019

Reported: 10/23/2019

Definitions: LOQ= Limit of Quantitation, ND = Not Detected, CFU/g = Colony Forming Unit per Gram

This product has been tested by Aurum Labs using validated testing methodologies (as specified in this report) and a Quality System as required by state law. Values reported related only to the product tested. Uncertainty information available upon request. Aurum Labs makes no claims as to the efficacy, safety or other risks associated with any detected or not detected levels of any compounds reported herein. This Certificate shall not be reproduced except in full, with the written approval of Aurum Labs.

KEITHLY-WILLIAMS TRANSPLANTS

VEGETABLE TRANSPLANTS FOR THE PROFESSIONAL PRODUCE GROWER

1903 E. 4th Street Holtville, CA 92250

Bus: 760-356-9983

Fax: 760-356-99489

January 23, 2020

To Whom It May Concern;

This letter is intended to convey the general quality of the industrial hemp samples we planted and grew for Black Canyon Seeds. We grew seventeen different samples in one of our greenhouses over a period of four weeks (28 days).

During germination, night temperatures in the greenhouse were 75-80°F. After germination was complete, the night temperatures were 65-70°F and day temperatures were 70-80°F. At fourteen days, a germ count was taken of each sample. Seeds showed good vitality, roots were clean, white, and filling the cell/cone. Germination appeared even in all samples and the germination average was 89.5%. Overall I would describe the samples as being of high quality and yielding strong plants.

Feel free to contact me if you have any questions or concerns at (928) 941-1419.

Sincerely,

Gary Ursrey
KWT Grower
