

## Parent Workdays

The workdays are occasions for us to work together to clean, renovate, repair and tackle special school projects. Workdays are scheduled twice a year, one in the Fall (August) and another in the Spring (April or May). One adult per family must participate in each workday. (Dates TBD)

Workdays are some of the rare occasions where we ask that children not come. Parents are asked to come ready to work, get dirty and messy (dress accordingly). We also typically ask that you bring tools from home to help out—please label any items that you don't want to lose since many tools look the same.

The workday coordinator will communicate our needs as the workday dates approach.
