Prospering Spares Globally

2019/2020

Our Story:

1986 was the year when Hassan Houmani decided, at a very young age, to quit his role as a maintenance technician and start his own business: Houmani Spares (HM Houmani).

The aim was clear – to provide the responsive service that was missing at that time in Lebanon. Hassan had a wide knowledge about working with industrial and mechanical spares, he also had a perspective on how to grow and develop this business in the market.

Today and after 35 years, we still cherish and hold on to Hassan's values and goals to provide all solutions that fulfill our customers' requests through our family business.

About us

Our aim is to provide our customers with the spare parts and repairs of high quality as quickly as possible to minimize their downtime and keep their businesses running without any delays. We value quality and great customer service which is why we employ the best experts & engineers, to make sure all of our customers have the most thorough sourcing team tracking down their hard-to-find obsolete parts.

At HM Houmani Sales, our strengths lie in our proven ability to respond quickly and effectively to any customer inquiry, using our extensive sourcing experience and a database of over 1,000 suppliers including reliable and reputable contacts in Germany, China, Italy, Japan and USA. This allows us to source high-quality spare parts directly from the manufacturer resulting in fast delivery with competitive prices.
