

Layered Jello

1 box of jello (for each layer—best to use different flavors)

1 cup boiling water

1/3 cup sour cream

Place glass bowl in freezer while mixing the first color. 4 colors will fit into a 1 $\frac{1}{2}$ quart serving bowl

Add 1 cup of boiling water to package of jello. Stir until dissolved. Remove 1/3 cup and put in another bowl (I use cereal bowls).

Remove glass bowl from freezer and pour in the 2/3 cup of jello. Return to freezer until it sets, about 5 minutes (give or take). While that is setting, combine 1/3 cup of sour cream with the jello left. When the jello in the freeze sets, pour on the sour cream layer and return to freezer. Then start all over again !

Make each layer the same way, and when it's finished, you'll have a jello dish that looks like a rainbow.

It is time consuming, but it's delicious!
