Dear Campers and Lodge Committee members,

We would like to start a rotation to check the campground and Lodge on a weekly basis throughout the year. We are asking you to drive out and check on the items listed below. We have devised a schedule based on your campsite number, starting with No.1. This will ensure the safety and upkeep of our Lodge and campgrounds. If you are unable to go out on your assigned week, please trade with another camper or call Troy. Notify Troy after your visit and let him know if there are any problems or if anything needs to be repaired or purchased for the Lodge.

Items to check:

Check toilet paper (2 rolls on dispenser, 2 extra on shelf). Replace if needed. They are in the cabinet in the basement of the Lodge

Check the Lodge, upstairs and downstairs. Make sure doors and windows are secure and locked. Look for anything out of the ordinary (broken windows, etc.)

Check Lodge supplies: cleaning supplies, paper products, garbage bags

Check the wood pile, make sure its still there.

Check the garbage dumpster, make sure it is being picked up regularly (pick-up is on Monday)

Winter time:

Check to make sure the road is usable or if snow needs to be removed.

Summer time:

Check that the dock is in place, not under water or too high.

Check to see if there is gas for the mower.

Thanks you for your participation!
