Your honor :

This is regarding Steven Cohen Esdale and a hearing that I understand is forthcoming. I was contacted by Mr. Esdale and I have agreed to provide technical assistance with retrieving recording that may be available from Sarasota County 911. The recording is believed to have been recorded on a Dictaphone Freedom logger and may have been archived to DVD. I would be glad to have one of my technicians assist with copying any available recording associated with this case from DVD to another media if it could be made available to us.

Sincerely,

Earl Simmons  
District Service Manager  
Dictaphone Corporation
