2019 Summer Camp

Program Schedule

Camp Open Hours:
8:30am-6:00pm
Monday-Friday
Weekend Office Open Hours:
Saturday 9:00am-5:30pm
Sunday 9:00am-3:30pm

Program Name	Description
Academics	Students will be challenged with academic work on Math, Reading Comprehension, Social Studies, Science, Analogy and Logic Thinking based on their grade and individual level. Math works will include math drills and also focus more on word problems. They will review what they've learned in the past school year and learn something new to help kick off the coming school year.
Art	Art classes include drawing, sketching, painting with different medium by professional art instructors. Students will develop their creativity and drawing/painting skills through carefully designed lessons.
Crafts	Students will learn to make crafts with different materials. It will be hands-on fun activities to build creativity and imagination of kids.
Jedi Engineering with LEGO® Materials	The Force Awakens in this introductory engineering course for young Jedi! Explore engineering principles by designing and building projects using LEGO® materials such as X-Wings, R2 Units, Energy Catapults, Defense Turrets, and Settlements from a galaxy far, far away. Create motorized and architectural projects with imagination and engineering to defeat the Empire!
Intro to STEM using LEGO® Materials	Let your imagination run wild with tens of thousands of LEGO® parts! Build engineer-designed projects such as: Trains, Helicopters, Tree houses, and Beam Bridges. Design and build as never before, and explore your craziest ideas in a supportive environment. There are no prerequisites for this course.
Public Speaking	Students will explore the vast seen and unseen world on a given subject. We will incorporate learning through listening, watching, researching, & writing. Students will employ their oral reading skills, creative expression, and dramatic voice to communicate the meaning of each script. Each student will be prepared to present their accomplishments on the final day of our 2-week session. A fun and memorable learning experience is the forecast for this class.
Story Telling	Students will learn the basics of public speaking and practice on telling their stories. They will participate in Reading Theater and perform to the parents at the end of the 2 week session.
Sculpture	Students participating in the Sculpture program will have the opportunity to creatively express themselves through the exploration of three-dimensional art media! Projects may include the use of media such as metal wire, metal foil, wood blocks, and a variety of other materials. Upon project completion, students will proudly display the work in an art show at US Arts Center.
