

Leverage USA Techniques and methods Incorporate Europe's high standards

Precision Labs at a glance

- **MEASUREMENT LEADER**

We have invested the last quarter century in developing equipment and techniques that suit our customer's needs.

- **ADVANCED QUALITY SYSTEM**

We are IEC:ISO 17025 accredited for world class quality.

- **CALIBRATE IN LAB OR FIELD**

With our great experience, we can find a way to get the job done in the field or at your location. We may even work with a local partner.

- **COMMUNITY LEADER**

A leader that wins awards will provide better service. No other calibration lab has the awards we have garnered.

Metrology the superior way: Precision Labs Calibration

Precision Labs started in 1995 by Terrance and Silvia Norris as a native American veteran owned company with an emphasis on customer service.

Our services harness the cutting-edge innovation and techniques developed in the USA, ensuring optimal performance and precision for USA-made products, while aligning with Europe's high standards of quality and sustainability.

Choosing a calibration lab with numerous awards for both technical appearances and community service ensures they will go the extra step for "Quality above all."

We specialize in the energy industry during the rapid growth of renewables in the sector.
