**While driving through** the South, tourists Jane and Joe stopped into a country store for candy. While they were paying, they noticed a group of men playing cards with a poodle. Joe said to the clerk, "can that dog really play cards?" "You bet," he said, "that's incredible!" "Not really", the clerk shrugged. "Not really?" "Nah, he ain't as bright as all that. Whenever he gets a good hand, he wags his tail."

**I took my curly-top**, blue-eyed toddler and  
her angelic newborn sister along

**My friends George** and  
Louise retired to a small Arizona  
village. As Louise's birthday  
approached, George asked what  
gift she'd like. "Well, a Rolls Royce  
would be nice," Joked Louise.

Early on the morning of her birthday, Louise  
heard strange noises in the garden. Tiptoeing  
to the door, she saw 2 burrows tied to the fence,  
each with a large side hanging from its neck. One  
said "Rolls" and the other, "Royce!"

**When my brother Tom** bought a new  
sailboat, he filled out an  
application for boat insurance.  
He was asked questions about  
the boat and himself and was  
instructed to include a recent  
photo. He and his wife sifted

through a stack of snapshots and selected one  
they felt was appropriate. Not long after sending  
in the form Tom received a letter from the  
insurer: "Dear Sir, thank you for sending the fine  
photo of yourself. We do admire your mustache.  
Now could you send us an equally appealing  
picture of the vessel we are about to insure."

### Question:

What do you call a  
Penguin in the desert?

**Answer: Lost**

LIFE ISN'T FAIR,  
BUT IT'S STILL GOOD,  
SO SMILE!

THOUGHT  
FOR THE DAY

**Golf is a great sport.** You get  
clubs, a box of beer and a key to a  
motorized vehicle!

### I told a friend of mine

confidently that I was having an affair.  
She turned to me and asked, "Are you  
having it catered?" And that my friend, is the  
definition of getting old.

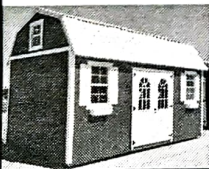

**Silence is Golden,** unless  
you have a puppy, then silence is  
suspicious, very very suspicious!

**Ever noticed the older** we get  
the more we're like computers? We  
start out with lots of memory and  
drive. Then we become outdated,

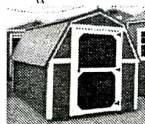

"CRASH" at odd moments and eventually have to  
get our parts replaced.
