OUR APPROACH

COUNTY PARTNERS

DISCUSS A PLACEMENT

A HAVEN FOR GROWTH AND BELONGING

More than a placement.

A place to feel safe, seen, and supported.

B.you House provides a nurturing, home-like environment where each young person is known, encouraged, and supported as she works toward stability, healing, and personal growth.

DISCUSS A PLACEMENT

EXPLORE OUR PROGRAM

SAFE HOME

STRONG FOUNDATION

BRIGHT FUTURE

A warm, professional first impression for county partners.

Clear program identity, easy navigation, and a direct path to placement inquiries.

Every young person deserves a place where she belongs.

We provide more than a safe address. We offer a small, supportive residential setting where structure, comfort, dignity, and belonging are part of everyday life.

1

A small, home-like setting

Our family-style environment helps staff build meaningful relationships, recognize changing needs, and celebrate progress.

2

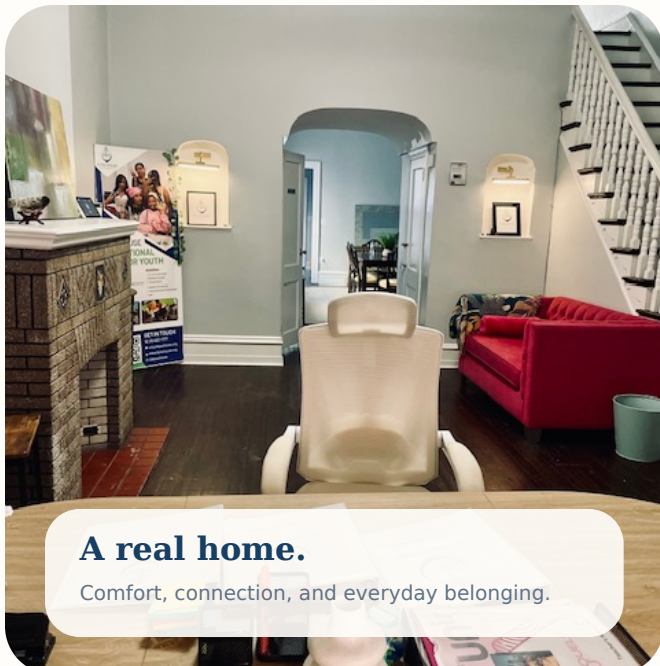

Individualized attention

We learn each resident's strengths, experiences, culture, interests, concerns, and goals so her care feels personal.

3

Care for the whole person

Difficult experiences do not define a young person. We build upon her strengths and help her move forward with confidence.

A plan built around her strengths, needs, and future.

Care is guided by each resident's county-approved service plan and coordinated with the young person, her family when appropriate, placing county, school, health providers, and treatment team.

Services and supports

- 24-hour supervision, daily structure, and consistent support
- Individualized service planning and case coordination
- Educational advocacy, school coordination, and tutoring support
- Life skills, cooking, budgeting, and financial literacy
- Career preparation, mentorship, leadership, and goal-setting
- Trauma-informed behavioral and emotional support
- Coordination of medical, mental-health, and community services
- Support for approved family relationships and connections
- Transportation for school, appointments, court, visits, and activities
- Discharge preparation and support for a successful next step

— OUR APPROACH

Safety and accountability - with warmth and dignity.

Prevention | Communication | De-escalation | Restorative support | Skill-building

Philadelphia is part of the plan - not simply the location.

Our location connects residents to schools, health-care providers, recreation, cultural experiences, employment opportunities, and community organizations.

A home within a community full of opportunity.

Supervised outings, volunteering, career exploration, and everyday community experiences help residents build confidence and practice independent-living skills.

Built on years of youth development B.you House builds upon the values and experience of the Uniquely You Foundation: listening to young people, strengthening their voices, and consistently showing up for them.

WHY COUNTIES CHOOSE B.YOU HOUSE

A responsive partner. A personal level of care.

We are committed to dependable communication, progress documentation, and active collaboration throughout placement, educational and court processes, family work, and discharge planning.

OUR PROMISE

Every resident is more than a placement. She is a young woman with value, potential, and a future.

Let's discuss placement and partnership.
