AUTOCALL TRUESITE WORKSTATION SERVER AND CLIENTS

TrueSite Incident Commander
Integrated directly into the fire alarm control unit.

TrueSite Workstation Client
Monitor system status, view logs and reports and coordinate more efficient maintenance and service.

TrueSite Workstation Server
Situated in the command center. System monitoring, live and recorded voice announcements, and emergency response can be coordinated from here.

TrueSite Workstation Backup Server
Redundancy makes systems more survivable and adds an extra layer of safety.

Ideal for:
- Colleges and universities
- Hospitals
- Large commercial facilities
- Transportation hubs
- Multibuilding campuses
