

**Spring | Summer 2026**

DELIVERY 1: JAN 15 | DELIVERY 2: MAR 15 | DELIVERY 3: MAY 15

# Our Vision

We are on an unrelenting pursuit to change what the world wears to move in. Inspired by daily active life, we believe that clothing in its most authentic expression is about living well.

# Our Mission

We are in pursuit of delivering innovative, uncompromising, and responsibly made active lifestyle apparel to support the demand of modern life.

# Our Fabrics

Since the founding of the company, tasc has created 12 proprietary fabrics, all of which are designed for sustainable performance and comfort with classic design.

## BamCo®

Protected by our closely held trade secret, our signature BamCo® process blends bamboo + organic cotton, optimizing the natural feel and inherent features of plant-based fibers with no chemical performance treatments.

### Comfortable

Extremely soft, lightweight, and breathable

### Moisture Wicking

Pulls sweat from the skin + to keep you cooler

### UPF 50+

Blocks 98% of the sun's rays

### Anti-Odor

Guards against odor-causing elements

### No Chemicals

Natural materials, no chemical performance treatments

### Durable

Easy care, quality that last

# For a Better Future

Our respect for the environment + the individual is our guiding principle. In our pursuit of a better future, we are committed to offsetting our **carbon footprint**, **reducing waste**, and **fostering a healthy and positive work environment**. We know the journey to clean production requires constant focus, investment, innovation, and refinement; our pursuit of better is unwavering and is a core tenant of the tasc brand.

## Natural Materials

75% of our products are made from natural fiber blends. With constant innovation, our goal is to expand the use of sustainable materials to 90% of our collection.

## Clean Energy

100% of the power required to run our primary sewing facility is generated from solar + wind.

## Social Responsibility

120% of the local wage and benefits paid to our factory team. Housing and food subsidies are provided + skill-training programs for the disabled.

## Waste Reduction

95% of the water used in our fabric dyeing process is recycled and reused (remaining 5% naturally evaporates). Our garments are shipped in bags made from 100% recycled material.
