## Additional Work

I have been working in VO since 2017, and I have many additional voiceover projects for which I was credited under my former name, and I could not have it corrected. All of the work I have listed here is most recent, and has the correct name listed. Under normal circumstances I would never put work that has not been published yet on my resume, but I have included projects for which I have completed VO work and for which the directors would be happy to give references for me if required. Contact information for these directors is:

- **The Target** - Dir. Dallas Wheatley (<https://dallaswheatley.wixsite.com/about>)
