

Levels of Consciousness: World Leaders - March 2023

The souls of world leaders.

Below are the average levels of consciousness (Dr David Hawkins' Scale of Consciousness from 0 - 1000) for some of our more prominent or pioneering leaders, as at March 2023.

Levels of Consciousness: World Leaders - March 2023

- Cyril Ramaphosa, South Africa: 687

Please note that the readings that were not possible obtained the following results:

- *Levels of consciousness zero - negative*
- *Level of consciousness more than zero - negative.*

We would typically see this kind of reading when the soul has left the body. However, since there have been no reports of the deaths of any of the above, we don't understand these results. There are several potential explanations, but since this is not a political website, we do not wish to investigate this further.

Please see our Article Not Everything is As it Seems: People that lists other well known people whose levels of consciousness do not resonate, despite being seen in the public eye.

Yet again, this month we are seeing a settling down of newly attained light levels for some leaders. After a significant rise from November 2022 to January 2023, two world leaders have not managed to sustain their new light levels and have decreased from January's levels. Viktor Orban went from 613 (November 2022) to 702 (January 2023) and then reduced back down to 665 (March 2023). Cyril Ramaphosa went from 641 (November 2022) to 687 (January 2023) and back down to 638 (March 2023). These kinds of fluctuations seem to be occurring frequently during our Ascension as we often struggle to hold all of our new light levels.

Vladimir Putin's levels have jumped up this month from 765 to 906 as he continues to experience a further rise in consciousness.

Interestingly, New Zealand's replacement prime minister, Chris Hipkins has way higher levels of consciousness (433) than Jacinda Ardern (who no longer resonated) and we

can see this reflected in his new policies. It should be an interesting year for New Zealand with a new, light-filled premier at the helm.
