Our speaker today is an expert in blending the worlds of business strategy, leadership and emotional intelligence. He is here to tell us how to build understanding, trust and commitment by developing strategic empathy to drive performance with employees, customers and stakeholders.

As a reformed Management Consultant, he has worked with some of Australia and New Zealand's largest companies such as the Commonwealth Bank, IAG, ASB, QBE and Perpetual to solve some of their most daunting challenges. For the last 18 years he has used his degree in mathematics and MBA along with people leadership and understanding of complex systems to drive strategic change in the corporate and not-for-profit worlds.

Now he is a professional speaker and trainer, award-winning consultant and author who believes it will be people, not technology, that will disrupt business today and in the future.
