**Item 3: Fees, Costs, Conflicts, and Standard of Conduct**

Our fees are calculated based on a percentage of the value of the portfolio assets at the close of each calendar quarter and are charged in arrears. Some clients have their fees charged monthly in arrears. Our standard fee is 1% per year up to \$1.5 million / 0.80% over \$2.5 million. However, variations from the fee schedule may occur due to the size of the total relationship, family holdings, low-cost basis securities, fixed income holdings, certain passively managed investments, and pre-existing relationships with clients. Certain clients may pay more or less than others depending on the amount of assets, type of account, complexity, degree of responsibility assumed, or special skills needed.

Our fees do not include certain charges imposed by third parties which may include the following: custodial fees such as wire fees and prime broker “trade away” fees, brokerage commissions, platform fees or fees paid to sub advisors, mutual fund, or money market management fees, 12 b-1 fees and sub transfer fees, administrative expenses, mutual fund and transaction fees, IRA and qualified retirement plan fees and other charges required by law.

## COTE FINANCIAL MANAGEMENT, LLC

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make in your investments over time. Please make sure you understand what fees and costs you are paying.

*More detailed information about our fees, can be found in our Form ADV, Part 2A Item 5.*

### Conversation Starter:

- Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

### **What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?**

When we act as your investment adviser, we have to act in your best interest. And not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

- ❖ Some financial professionals are licensed insurance brokers. As insurance brokers, financial professionals receive commissions on insurance products if the client has a need for such products. We generally do not recommend insurance products, but we will sell them to clients if recommended by a third party such as estate planning attorney.
- ❖ We utilize the brokerage and custodial services of Charles Schwab. In addition, Schwab may make available, arrange, and or pay for these services to CFM by independent third parties.

*For more detailed information about these services, see Form ADV Part 2A Items 6, 10, & 14.*

### **How do your financial professionals make money?**

Our Certified Financial Planner (CFP) can charge a fixed financial planning fee that is agreed upon in advance. We do not sell any products nor do our advisers receive any commissions of any kind.
