

## DOMAX DECISION DECODER

What is the desired outcome of this decision?		
Have I evaluated all possible options?	Y	N
Am I avoiding the obvious choice because I'm scared of the unknown?	Y	N
Which option provides the most comfort?		
Which option is financially beneficial long term?		
Which option helps me grow more, even if it's uncomfortable?		
Which option comes with higher risk?		
If I choose comfort now, what could it cost me?		
What limits can I put in place to minimise risk and make my decision easier?		
Is there a way I can trial these decisions without going all the way?		

“Making the right decision isn’t about finding the perfect path — It’s about making an educated choice on what is best for you. Sitting on the fence won’t protect you either; it just slows you down. You can’t course-correct if you’re not making any moves and even if you make the “wrong” move; the sooner you start, the sooner you’ll find out...

Don’t be scared of failure. Instead, Fail forward! Every step forward gives you feedback, experience, and momentum. So don’t wait until everything feels certain — it rarely will. Make the call, back yourself, and adjust as you go. You’ve got this.”

DOMAX FOUNDATIONS.

Opt No. \_\_\_\_\_

<b>PROS</b>		<b>CONS</b>
<b>What is the BEST possible outcome to come from this option?</b>		
<b>What is the WORST possible outcome to come from this option?</b>		
<b>What could be added to the pro's of this option that would make this the clear winner?</b>		
<b>Does this options provide more of a long term benefits over short term benefit?</b>	Y	N
<b>Is their a high chance of regretting not choosing this option?</b>	Y	N
<b>Does this option align with my values and goals?</b>	Y	N
<b>Will I still grow from this position even if it doesn't work out perfectly?</b>	Y	N
