 Phoenix Cheer & Dance

 @phoenixcheersa

OUR STORY

Embracing the global cheerleading revolution, our gym owners founded Phoenix Cheer & Dance. With an unwavering commitment to inclusivity, we recognize the individuality of each athlete's learning and growth. We prioritize personalized instruction and unwavering support to ensure every athlete's journey is valued and celebrated.

OUR VISION

There's this notion that to excel in cheerleading, you have to be cutthroat. But we know there's a better way to thrive. One where what's good for the team is also good for our athletes. We have created a movement within our gym to empower our cheerleaders and refocus our attention on their growth and well-being.

OUR MISSION

We believe that cheerleading and dance programs can be successful with integrity and thrive with a passion for the sport — and that they can achieve it through inclusive training. That's why we've established an ecosystem that combines innovative techniques, educational resources, and a supportive community to help our gym grow better and empower our athletes every day.

WHAT WE OFFER

We offer a range of cheerleading, tumbling, and dance programs for all ages and abilities. Whether you're looking for fully competitive, semi-competitive, or recreational options, we have something for everyone. We proudly welcome individuals with disabilities, ensuring an inclusive environment for all. From novice to elite teams, our highly trained and qualified staff is dedicated to helping athletes reach their full potential.
