This collaborative effort involves the Good Samaritan Project, Purdue Extension consisting of three organizations, Grow Local, Star City Church, and other representatives from other organizations that are dedicated to community development and sustainable agriculture. During this meeting, we'll discuss the project's vision, goals, schedules, and how you can get involved through volunteering, gardening, and educational programs.

This meeting marks the beginning of our journey towards local food production, sustainability, and community engagement. Whether you're passionate about gardening, and sustainability, or simply curious about our project, your presence and ideas are crucial. Join us in shaping the future of our community garden and making a positive impact together.
