

MARINE MINERALS BEAUTY CONSENT FORM

CHEM-EXFOLIATION:

Chem-Exfoliation Treatment is designed to improve the texture and appearance of your skin. Fine lines may be softened, dull skin may appear more radiant, rough and uneven skin may become smoother, sun damaged skin may even out and acne scarring may be softened. The first couple of days the skin may be rosy and may feel tight, then it may begin to peel or flake for anywhere from 3-10 days. It is imperative that clients minimize sun exposure and/ or wear sunscreen every day.

DERMA-EXFOLIATION:

Derma-Exfoliation Treatment is designed to remove fine vellus hair and dead layers of skin from the face allowing for better product absorption. This service has no down time, however it is imperative that clients minimize sun exposure and/or wear sunscreen everyday.

NANO CHANNELING:

Nano Channeling Treatment is a non-invasive procedure designed to stimulate your body's natural ability to heal itself. After the service the skin's texture and firmness may improve, scarring, stretch marks and pore size may all be reduced. This is a safe and chemical free way to jumpstart rejuvenation and trigger new collagen in the skin. If electing this treatment, be prepared for skin to be tender. Clients may have 1-3 days of redness. It is imperative that the client avoid the sun and sweating for 24 hours following treatment and use sun protection for at least 10 days following treatment.

PEPTIDE INFUSION:

Peptide Infusion Treatment is designed to trigger cells to perform specific functions encouraging the skin to look and act younger. Peptides are short chains of amino acids that act as building blocks of proteins such as collagen, elastin and keratin. These proteins are the foundation of your skin and are responsible for its texture, strength and resilience. There is no downtime for this treatment. A proper home care regimen may increase the results of this treatment.

HYDRAFACIAL MD:

HydraFacial MD is one of the most powerful, non-invasive skin resurfacing treatments available today. It combines cleansing, exfoliation, extraction, hydration and antioxidant protection in a single service. There is no downtime for this treatment and a proper homecare regimen may increase the results of this treatment.

RISKS AND COMPLICATIONS:

This list is not meant to be inclusive of all possible risks and complications associated with Marine Minerals Beauty Treatments as there are both known and unknown side effects associated these treatment. The possible side effects may include but are not limited to:

1. Post- treatment discomfort, irritation, itching, drying, flaking, stinging, pain, tenderness, swelling, redness and discoloration. Usually this resolves during the healing process, but in rare situations it may be chronic.
2. Infections can occur which in most cases are easily treatable but in rare cases a permanent scarring in the area can occur. Talk to your skin care therapist for product information to reduce this risk.
3. Allergic reaction to the chemical. Asthema, hay fever, eczema, or a history of allergies may increase this risk.
4. Re-activation of herpes (cold sores).
5. Wind or sun sensitivity which may cause swelling and redness.
6. Prone to extreme reactions such as scarring or keloids.
7. Skin darkening.
8. Nicks to the skin.
