

Company Overview

About Us

Home Secure 3D was founded in 2024 with the mission to provide homeowners with a comprehensive and efficient way to document their properties and belongings. We understand that in the event of a home emergency, having detailed documentation is crucial for a smooth insurance claim process. Our team uses state-of-the-art indoor and outdoor drones equipped with 3D cameras to capture every detail of your property.

Services Offered

- **3D Property Scans:** Detailed 3D scans of both the interior and exterior of your home creating a digital copy or twin of the entire property.
- **High-Resolution Photos and Videos:** Comprehensive visual documentation of all your belongings.
- **Secure Storage:** Safe and secure storage of all documentation is placed in the included secure flash drive for easy access when needed which is kept inside the included fireproof documentation box.
- **Onsite document scanning:** We bring highspeed scanners for documentation of passports, birth certificates and most important documents.

Unique Selling Proposition

What sets Home Secure 3D apart is our use of advanced drone technology to provide a thorough and accurate documentation service. Our approach ensures that every corner of your property is captured, giving you peace of mind in the event of an emergency.
