Consent for Telehealth Videoconferencing Appointments

1. I understand that my health care provider wishes me to engage in one or more Telehealth Videoconferencing Appointment
2. My health care provider explained to me how the video conferencing technology that will be used to affect such a consultation will not be the same as a direct client/health care provider visit due to the fact that I will not be in the same room as my provider.
3. I understand that Telehealth Videoconferencing has potential benefits including easier access to care and the convenience of meeting from a location of my choosing.
4. I understand there are potential risks to this technology, including interruptions, unauthorized access, and technical difficulties. I understand that my health care provider or I can discontinue the telehealth consult/visit if it is felt that the videoconferencing connections are not adequate for the situation.
5. I have had a direct conversation with my provider, during which I had the opportunity to ask questions in regard to this procedure. My questions have been answered and the risks, benefits and any practical alternatives have been discussed with me in a language in which I understand.
