

Looking for a Quick and Easy Way to Make Money the eBay Way?

LEARN HOW TO START SELLING ON EBAY IN JUST 1 DAY

IF A GRANNY CAN DO IT... SO CAN YOU!

Hi there!

I'm Linda Leggette. Yes, I'm a granny, but one that has decided not to settle for a part-time job, housework, and a rocking chair. I may not enjoy listening to rap music or know how to rollerblade, but I have discovered joy in doing something that until now was considered a huge home-business opportunity for everyone else. That something is eBay. It's an odd little word, but for me it has led to **becoming a home business owner**, having fun, and planning a cruise.

So, what's a granny doing on eBay?

Like everyone else...trying to **make money**! If you know anything about eBay you know it's **all about making money**. I read the newspaper and watch the news, so I heard about eBay. It was my curiosity that led me to discovering how really simple it is to start selling on eBay. Not in a month or a week, but **in just 1 day I was able to refer to myself as an eBay seller**. Want to know how a granny made it onto eBay? Well, keep reading honey...

Retirement is what everyone who works looks forward to, right? Let me be the first to break the news to you...retirement is not all that it is cracked up to be, especially from a financial standpoint. I was forced to a part-time job and there just wasn't enough money for me to buy a few extras and have a little fun (yes, grannies want to have fun too). I had heard about eBay and after doing a little research, learned that I could **sell just about anything on eBay**. I flipped (not literally, I'm a granny remember)!

"Sell An Old Psychedelic Shirt For \$50?"

Think you don't have anything to sell? I managed to get rid of my husband's old psychedelic shirt for \$50. Now that was joy...twofold! I would guess that you have similar items in and around your home. All you need now is an easy method to get your good stuff on eBay. This is where I come in. I am so excited about how easy it is to start selling on eBay that I decided to write an e-book about my success.

Don't start rolling your eyes. I know. I know. Another book on eBay? Listen to me now. This is **not just another book about selling on eBay**. I am not offering a get rich

scheme. I've been around a long time and I know that there is no such thing. I just want you to know how easy it is to have some fun like me and make some money doing it. And you don't have to be a granny.

If you are:

- A stay at home mom
- In school
- Working full-time
- Working part-time
- Interested in making extra money
- Bored

My book was written for you!

Like you, I like things simple and straight to the point, and that's how I have written my book. You won't find any secrets of eBay exposed in my book. That's because there aren't any! What you *will* find in my book are easy to follow **step-by-step instructions**. Think of using a recipe to cook a meal. You take it one step at a time, right? That's how I have written my book...**a recipe for becoming successful on eBay**.

Tired of risky home-business ideas that leave you disappointed and broke? I experienced success with just a **few bucks** and a **dusty old computer**. Are you better off than that?

You Are Ready To Start Selling On eBay...Today!

This Is What You Will Learn From Granny Goes eBay:
