\*OPENING PRAYER

*Haeven Sedler*

**We follow you, Jesus, today as we worship; in words of love and devotion sung and spoken, in service and kindness, in shared life. And all we need to do to follow you as we leave this place is to continue saying and doing - to others - what we bring to you in this hour. As you feed us now, Jesus, in our worship, may we become, again, your body which nourishes the world, and embraces all people with kindness. Amen**

## HERSTORY IV SUMMER 2026

Fear, Faith, and Women in  
the Salem Witch Trials  
Sundays, July 12, 19, 26

5:30 p.m. - 7 p.m.

Instructor:

Dr. Jerra Jenrette

During summer 2026, Jerra Jenrette, retired professor of history, will take interested folks on a “virtual” trip through the history of the Salem witch trials. These trials occurred during the 17th century when neighbors and family members launched a series of witchcraft allegations against people in Massachusetts Bay Colony (MBC).

Founded in 1630 by Puritans seeking religious and economic freedom, MBC leaders sought to establish what was essentially a theocratic government. Beginning in 1688, the small town/village of Salem, Massachusetts, became the focal point of the “American” witch craze.

This course will examine the role of fear, faith, and women in this infamous/famous period in our history, considering the impact (short-long term) as well as how it reflected broader and deep themes in the development of this nation. During 1692–93, twenty people were executed and four others died awaiting trial, while 150–200 people were accused of witchcraft in a community whose population was 600!

During her academic career, Jerra taught several courses on the Salem witch trials, the European witch craze, and took students to visit historic sites in Salem and the surrounding area for over twenty years.

Please sign up in the Narthex if interested.

## God and the Machine Study:

June 9<sup>th</sup>, 16<sup>th</sup>, 23<sup>rd</sup>, 30<sup>th</sup>  
6:30 - 8 p.m. by Zoom

### Explore the Possibilities of ARTIFICIAL INTELLIGENCE

with discernment and grace.

Artificial Intelligence (AI) has moved quickly from a novelty to something that shows up in nearly every part of our lives. What once felt like small conveniences now shapes how we work, connect, learn, and even worship. For many Christians, AI can still feel like something out of a sci-fi movie, stirring up worry, confusion, or distrust.

God and the Machine speaks to anyone who is unsure, curious, or somewhere in between. Ignoring AI is no longer an option, yet we are still called to approach every new tool with care and discernment. United Methodist pastor Nathan Webb guides readers through what AI means for the church, offering clarity, honesty, and hope. Along the way, you will explore how to welcome new possibilities without letting go of your values and how God may be opening up surprising, grace-filled opportunities in this emerging world.

# Women Speak of God

## About the Course

This course is not just for women! *Women Speak of God* shows how Christians in different cultures, different time periods, and different social locations have told their faith stories. Amy Oden, professor of the history of Christianity and dean of Wesley Theological Seminary in Washington, D.C., presents video lectures on six Christian women who wrote about their faith. The workshop explores how we, as members of the Christian family, tell our "family stories." It also helps us to examine our own faith and to articulate our own experiences of God.
